

Homeland Security Planning for Campus Executives

OVERVIEW:

This workshop provides an opportunity to bring together individuals who do not have experience in security planning and are responsible for their campus's homeland security plan with individuals who do have planning experience. The workshop provides a basic overview for those institutions attempting to develop an approach to solving homeland security planning, and it provides useful resources and tools. The workshop was developed for the [U.S. Department of Homeland Security](#).

TARGET AUDIENCE:

The target audience includes campus presidents and vice presidents; key staff members; safety committees; and incident management teams.

FORMAT:

The course can be delivered via interactive videoconferencing (5.5 hours), or it can be an instructor-led direct delivery workshop (4.5 hours).

BENEFITS:

This course will help campuses strengthen preparedness planning; raise awareness of potential threats; and provide useful resources and planning tools.
